

SEG FABRIC GRAPHICS INSTALLATION

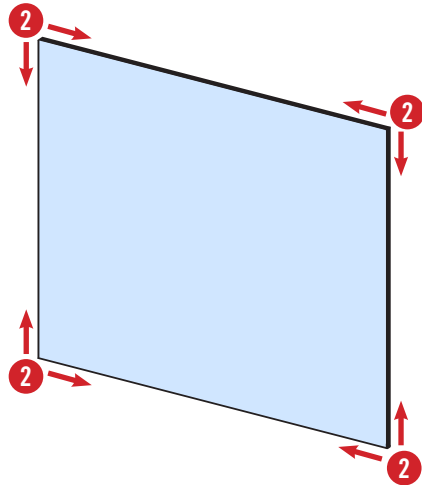

- 1** Insert the gasket into **only** the corners of the frame.

- 2** **CRITICAL:** Start from each corner and work towards the center of the frame to evenly distribute the gasket in the frame channel.

DO NOT start at one corner and work in one direction across the frame as this will stretch the gasket and bunch the fabric.

FABRIC HANDLING

- | Most fabrics can be folded. Loosely fold with image facing inward.
- | Follow general fabric care guidelines included with this shipment.
- | Store graphics in original shipping packaging.
- | Do not crush.
